Band of Heysek is a raw and wild blues trio from Brno, Czech Republic, known for their gritty, original songs soaked in the spirit of North Mississippi blues.

Since their debut **Shovel & Mattock** (2017), they've built a strong following at home and abroad. A key milestone was their collaboration with Mississippi legends **R.L. Boyce** and **Kenny Brown**, resulting in two albums recorded in the U.S. (2019). Their music resonates across Europe, the U.S., and even Asia.

After releasing a joint album with English post-punker Phil Shoenfelt, they returned to Mississippi in 2025 to record their next album, **Sticky Ricky**, set for release in early 2026 on Indies Scope. Among other foreign guests, it also features the legendary American harmonica player **Charlie Musselwhite**.
